

Chippewas of Georgina Island First Nation

Water Servicing Feasibility Questionnaire – B – South and East Homes Only

Address: _____

As you may be aware, the Chippewas of Georgina Island First Nation are in the process of completing a water servicing feasibility study to service members on the eastern and southern regions of the island. We request your completion of this questionnaire to help us learn more about your needs with regards to water servicing within the community.

This survey will assist in the process of determining the best solution for developing an effective and reliable water treatment and distribution system. Your answers will be held in the strictest confidence and will be tabulated with those of other members to determine community needs, desires and possible concerns. It is not required that you answer all of the questions. Surveys will be administered at each home by a Georgina Island First Nation community member. Thank you for your time and assistance.

Section 3: Water Servicing Survey

This section of the survey will ask questions that will help with the development of the water servicing options, with the goal of providing potable water to the eastern and southern regions of Georgina Island.
